STINSON

Program Schedule

Thursday, November 10, 2022

7:50 a.m. Coffee and Pastries - Lobby

8:10 a.m. Log In and Tech Check for Live Stream

8:30 a.m. Welcome – Salon A/B

ROGER WALKER, Executive Director, REGFORM
KEVIN PERRY, Assistant Director, REGFORM

8:40 a.m. The Year in Review

A rapid-fire session with air experts designed to identify key environmental issues that should be on your radar screen. This panel will identify the most important issues, developments, news, and policy considerations since the last Air Seminar.

STEPHEN HALL, MDNR, ACPD Director
DANA SKELLEY, US EPA Region 7
MICHAEL HUTCHESON, Ameren
JEFFRY BENNETT, Barr Engineering

9:25 a.m. ROGER WALKER, REGFORM (Moderator)

9:30 a.m. Impact of Environmental Justice on Siting, Permitting, Operations, Citizen Monitoring, Enforcement and Remediation

This session will explore US EPA's position that "just because you have a valid permit does not mean you are in compliance with Environmental Justice," a new enforcement initiative that focuses 50% of inspections on "overburdened communities," emerging EJ Community groups; non-regulatory monitoring, \$3 billion in EJ Block Grants, EJ40 projects, and the plethora of new guidance documents, including: "Interim Environmental Justice and Civil Rights FAQs;" "EJ and Civil Rights;" and the "Environmental Justice Action Plan for Land Protection and Cleanup Programs."

JESSICA MERRIGAN, Spencer Fane LLP
JACOB WESTEN, MDNR (Invited)

10:15 a.m. ROGER WALKER, REGFORM

10:15 a.m. Break

10:30 a.m. Air Pollution Control Program Updates

Our speakers will address administrative changes, staffing issues, program financial health, potential ozone bump-up for the St. Louis nonattainment area, Regional Haze, PM2.5 & Ozone standards, ozone transport, the Federal Inflation Reduction Act, & other key issues.

STEPHEN HALL, ACPD Director
MARK LEATH, MDNR, Planning Section Chief

11:10 a.m. KELLI CALHOON, Ramboll (Moderator)

11:15 a.m. US EPA Region 7 Update

A US EPA perspective on regulatory and policy changes that impact MDNR and regulated facilities.

DANA SKELLEY, Director, Air and Radiation Division, US EPA Region 7

11:55 a.m. KELLI CALHOON, Ramboll (Moderator)

12:00 p.m. Lunch – Lobby and Salon C

AFTERNOON SESSIONS

12:45 p.m. Air Quality Planning Process - Salon A/B

How the Air Quality planning process works. There is way more to this than what we see in public notices. Bring your questions!

1:20 p.m. MARK LEATH, MDNR, Planning Section Chief

1:25 p.m. Local NGO and Air Monitoring

Who is monitoring your air and what to expect going forward. The proliferation of low cost and easy-to-use air quality sensors has given nearly everyone the ability to monitor air pollutant concentrations at virtually any location on any time scale. Used correctly, the data can be useful in identifying unknown and dangerous emission sources. But there are also ways to both intentionally and unintentionally present data to give the appearance that a source is operating out of compliance. We will examine some of the monitoring methods available, discuss how they can be used to evaluate your facility, and provide practical tips to help minimize the possibility of being impacted by their use.

JEFFRY BENNETT, Barr Engineering

2:05 p.m. JESSICA MERRIGAN, Spencer Fane LLP

2:10 p.m. Break

2:30 p.m. Update on Proposed changes to RMP (the proposed Safer Communities by Chemical Accident Prevention)

US EPA recently proposed revisions to strengthen the Risk Management Program (RMP) rule, including enhanced employee participation and transparency for communities. The RMP rule requires industrial facilities with high accident rates to prevent accidental air releases of dangerous chemicals that could cause deaths, injuries, or property and environmental damage, or require evacuations in surrounding communities.

2:55 p.m. JESSICA MERRIGAN, Spencer Fane LLP

3:00 p.m. Enforcement Update

Behind the numbers on enforcement. What trends are we seeing in Missouri? How do US EPA enforcement priorities impact the work of the ACPD?

3:25 p.m. RICHARD SWARTZ, Chief, Compliance and Enforcement

3:30 p.m. Air Permitting Update

How is the perennial shortage of permit writers impacting the ability of ACPD to issue permits and maintain staff morale? Has the US EPA push for greater transparency impacted how the ACPD conducts public hearings or its review process? What new rules and policies are impacting permitting decisions?

KENDALL HALE, ACPD, Chief, Permits Section

4:00 p.m. Adjourn

Thank you, MDNR for your assistance and participation

REGISTER FOR THE **2022 MISSOURI AIR COMPLIANCE SEMINAR** AT:

www.regform.org/register-here
