# Program Schedule

---

**Tuesday, April 30**

All plenary sessions meet in Salon A/B

**7:30 a.m. Continental Breakfast**

**7:55 a.m. Welcome**

BRIAN MARTIN, Ameren, REGFORM Hazardous Waste Chairperson  
ROGER WALKER, REGFORM

**8:00 a.m. Top 10 RCRA Provisions That Confuse Even the Most Seasoned EHS Professionals**

In this first-of-its-kind panel discussion, these EHS pros will reveal some of the bumps and bruises they've earned the hard way while toiling every day in the muck of confusion that is RCRA compliance. Anyone can get it wrong when it comes to the complexities of RCRA. Don't miss this precautionary dive into a discussion that aims to keep you out of trouble.

LIANE HETHERINGTON-WARD, BASF  
KEVIN FASKEN, University of Missouri  
ANDREW BROUGHT, Spencer Fane  
KEVIN PERRY, REGFORM (Moderator)

**8:40 a.m. Mini Break**

**8:50 a.m. You've Got PFAS. Now What?**

PFAS compounds present a unique set of concerns for all of environmental compliance. But what about site remediation in particular? Once you've identified PFAS on a property you want to keep or transfer, what should you be thinking and doing? Timing can't be ignored with pending MCLs and hazardous substances designations. And Missouri has No Stricter Than statutes that factor in. Our speakers will address these issues from both a legal and technical perspective.

SARAH STRUBY, Stinson  
ALEC DANIELSON, Barr

**9:30 a.m. Environmental Remediation Program Update**

The ERP Director will update us on recent developments and discuss hot topics including the new Federal lead standard, staffing, transitions, accomplishments, fees, new responsibilities, and priorities and initiatives for the upcoming year.

JUSTIN BUCKLER, MDNR, Environmental Remediation Program Director

**10:10 a.m. Networking Break**

**10:20 a.m. Waste Management Program (WMP) Update**

The WMP Director will update us on recent developments and discuss hot topics including staffing, transitions, accomplishments, fees, regulation changes, new responsibilities, and priorities and initiatives for the upcoming year.

CHARLENE FITCH, MDNR, Waste Management Program Director

**11:00 a.m. TSD Backlogs**

If you haven't had trouble getting your hazardous waste picked up in time to escape a 90-day limit in storage,

you've been lucky. What's the status at waste haulers, kilns, etc. What's it like to get an extension from MDNR?  
DAVE ZIMMERMAN, SET Environmental

**11:20 a.m. Views from the Hazardous Waste Management Commission (HWMC)**

In Missouri, citizens commissions have the authority to promulgate environmental regulations. The HWMC promulgates rules affecting both the Environmental Remediation Program and the Waste Management Program. For the first time ever, attendees will hear from a panel of Commissioners who will offer their views and perspectives on Program priorities, rules in development, goals, potential obstacles, accomplishments, and more.  
TBD, TBD

**12:00 p.m. Lunch**

## AFTERNOON SESSIONS

**12:40 p.m. MRBCA Guidance—A Look at What's New in the Proposed Review Document**

MRBCA Guidance has been years in the making. We're closer than ever to bringing about real and much-needed changes to MRBCA. What's new in the anticipated guidance?

CHRIS CADY, Ph.D, MDNR, ERP

**1:00 p.m. Proposed Risk-Based Target Levels—How Did We Get Them? And What Changes will Have the Most Impact on Site Owners?**

The RBTs for MRBCA have not been updated in a long, long time. But our knowledge of toxicology/carcinogenesis advances. Learn about the new RBT list and what it holds for site responsible parties (non-tanks) voluntary cleanups.

RICH NUSSBAUM, MDNR, ERP  
CHRIS CADY, Ph.D, MDNR, ERP

**1:15 p.m. Vapor Intrusion—A Look at What's New in the Proposed Review Document**

Much has changed since the original MRBCA laid out an approach to Vapor Intrusion (VI). New VI guidance is anticipated very soon. What's new in VI and what changes will it drive as you set out to address voluntary cleanups in Missouri?

RICH NUSSBAUM, MDNR, ERP

**1:30 p.m. US EPA Region 7 Update**

Hear about new priorities, new initiatives, and other issues you should be anticipating as you work to remain in compliance.

JOHN SMITH, US EPA Region 7, Land, Chemicals, and Redevelopment Division

**2:15 p.m. Highlights of the Federal RCRA Rules Package**

RCRA is not a delegated program; it's authorized. And if Missouri wants to keep it's authorization, it must adopt Federal RCRA rules. A rules package featuring HWGIR, pharmaceuticals, airbags, ignitable liquids, and wood treaters rules is moving through the approval process and is likely to be effective a year from now. Find out more

about what's in this rules package with an emphasis on the  
HWGIR.  
TBD, MDNR

CHARLENE FITCH, MDNR, Waste Management Program  
Director (Invited)

**2:50 p.m. Networking Break**

**3:10 p.m. Program Perspectives on Environmental Justice (EJ)**  
Environmental Justice initiatives at the Federal level (with  
some notable hurdles) have been moving at a break-neck  
pace. But legal authority for some provisions just doesn't  
exist in Missouri. Learn how WMP and ERP integrating EJ  
practices, requirements, or suggestions into their actions.  
Is funding for non-profits and local community groups  
having an effect?  
JUSTIN BUCKLER, MDNR, Environmental Remediation  
Program Director

**3:30 p.m. Hazardous \_\_\_\_\_ The Regulatory Implications of  
Designations and Classifications**  
Hazardous Material. Hazardous Waste. Hazardous  
Substance. Hazardous Constituents. Each of these has  
legal meaning and implications for environmental  
practitioners. What does it mean if PFOS becomes a  
hazardous constituent? What turns a hazardous material  
into a hazardous waste? We'll split hairs and get smarter  
together as we get back up to speed on these important  
distinctions.  
LIANE HETHERINGTON-WARD, BASF

**4:05 p.m. Adjourn**
